

MEET REGULATIONS, IMPROVE PRODUCTIVITY - ZERO HASSLE

Streamline your workflows by removing unneeded artifacts and archiving non-operational assets you must hold on to

ARCHIVING AS A SERVICE

JFrog Maintains Your Archive So You
Don't Have To.

POLICY DRIVEN AUTOMATION

Create Automated Policies Validated
With Dry Runs.

MAINTAIN CONTEXT

Easily Restore Artifacts With
Complete Metadata Intact.

THE CHALLENGE

There's no standard way to meet directives to maintain records of all software releases for long periods.

The ad hoc approach to maintaining release records can lead to data loss, error prone workflows, and incomplete context making it difficult to restore software when needed and opening up teams to regulatory violations.

THE SOLUTION

Optimize operational systems and simplify long term asset archiving within your single source of truth.

JFrog empowers organizations to automatically archive required assets for as long as needed while maintaining the complete software context for seamless restore.

A Proven Track Record of Happy Customers

POWERING 7,000+ DEVELOPMENT TEAMS | 80% OF THE FORTUNE 100

**"WE NEEDED AN IMMENSELY RELIABLE AND
DEPENDABLE SOLUTION WHICH
WE FOUND IN JFROG."**

Subramanyam Iyer
Development Director, Oracle

**"IT'S A MASSIVE ENABLER OF
EFFICIENCY FROM AN ARCHITECTURAL
PERSPECTIVE."**

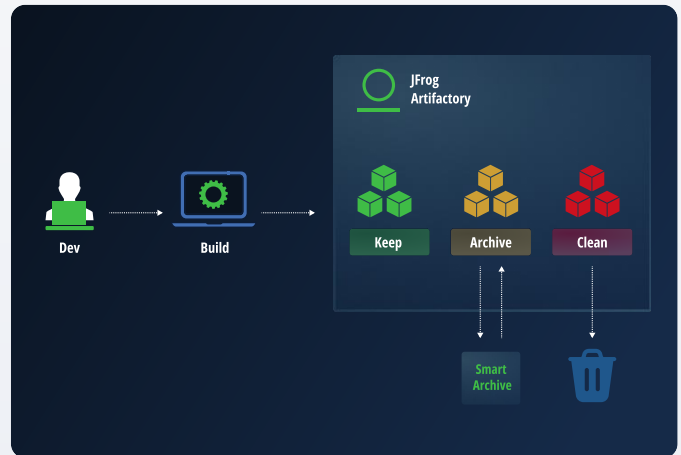

Martin Eggenberger
Chief Architect, Monster

CREATE A COMPREHENSIVE RETENTION POLICY

Keep what matters - in the right place - and remove the rest seamlessly

- Pair archiving policies with cleanup policies for a modern retention approach
- Automate based on a variety of criteria such as age, usage or version condition
- Easily meet external regulations and internal policies

Features and Benefits

ENSURE REGULATORY COMPLIANCE

- Maintain software releases with their full metadata and evidence
- Long-term accessibility and audit readiness
- Restore archived assets quickly, whenever you need them

MANAGE COSTS AS YOU GROW

- Get ahead of the increasing pace of artifact creation as your organization grows
- Reduce storage expenses by archiving stale production-grade assets in lower cost storage

IMPROVE OPERATIONAL EFFICIENCY AT SCALE

- Improve system efficiency and reduce build times by keeping repositories clean and efficient
- Scale effortlessly with enterprise-grade support for federation, projects, and more

AUTOMATED POLICY DRIVEN ARCHIVAL

- Eliminate manual effort with automated configurable policies
- Prevent accidental deletion/archival with dry runs

The Leading Platform for Software Supply Chain Governance

JFrog empowers DevSecOps organizations globally to curate, secure, manage, and deliver the building blocks of all their mission-critical applications at scale - at deployment locations anywhere in the world.
